Factoring Special Cases Calculator - Easycalculation.com

Factoring Trinomial – Hard Case. Previously, we went over how to factor out a quadratic trinomial with a leading coefficient of 1. We called that type of trinomial as the “Easy Case”. This time around, we will deal with a trinomial having a nonzero leading coefficient not equal to +1 or -1 which we will call as the “Hard Case”.

7.4 Factor and Solving Polynomial Equations Student

Polynomials - Multiply Special Products Objective: Recognize and use special product rules of a sum and difference and perfect squares to multiply polynomials. There are a few shortcuts that we can take when multiplying polynomials. If we can recognize them the shortcuts can help us arrive at the solution much quicker.
